

Meritor Parts

Meritor Parts - Meritor is a premier international dealer which is proudly established on a 100 year tradition of quality and service. They specialize in several integrated systems, modules and components to original equipment makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage within the international operations. The business values all of their customers and wishes to guarantee their success while anticipating their diverse needs. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor promotes collaboration and innovation amongst a team of experienced experts.

Meritor strongly believes in just employing future focused employees. These top-caliber individuals could quickly get used to to changing surroundings and freely exhibit the level of performance and commitment necessary to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides their workers various possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, braking and suspension systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of all their global engineering personnel.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all over the globe in 19 countries and in 5 different continents.

They have their supplier network which is particularly located so as to support the development of the business. Every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is even included transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
