

Clark Forklift Part

Clark Forklift Parts - At present, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 individual items designed for 20 unique models of forklifts and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark features a exceptional Parts Supply team. The parts warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark's relentless effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the globally accepted quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has chosen the extremely economical and beneficial structure of "Lean Production" for its assembly facilities and application of resources. This system was established to acknowledge the most successful approaches of production facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their products while minimizing expenses. The contemporary value engineering agenda combines modern product improvement and delivers improved client support and service within the industry.
