

TCM Forklift Parts

TCM Forklift Parts - In the global industry of material handling, lift trucks play a major role for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition following WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread internationally.

In nineteen forty nine, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Currently the company is simply known as TCM Corporation. Through the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation with the industry. TCM started building lift truck manufacturing sites outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated expertise and technology, TCM has been proudly manufacturing numerous models of industrial lift trucks, making their models recognizable all over the globe. With a strong and energetic workers, TCM has been able to continually work towards becoming a future leading material handling company.
